

HR EMPLOYEE ASSIST

INFORMATION STATEMENT

What is HR Employee Assist (HREA)?

HREA is a premium psychology service which we encourage employers to offer their staff (& immediate family members if desired) to support their emotional & psychological wellbeing in the ever-intertwined professional & personal wellbeing arenas of life. One in five Australians take time off work regularly due to anxiety, stress, depression, workplace conflict & generally feeling mentally “below par”. We can importantly improve staff wellbeing & ultimately performance & productivity. To maximise the effectiveness & efficiency of HREA support, we choose to utilise only the services of highly experienced registered & clinical psychologists endorsed by the Psychology Board of Australia (PBA) & the Australian Health Practitioner Regulation Agency (AHPRA).

What are the benefits of HREA?

- ✓ Increased productivity & performance
- ✓ Reduced workplace conflict, stress & absenteeism
- ✓ Enhanced individual wellbeing & life satisfaction
- ✓ Improved staff morale & employee retention
- ✓ Reduced workers’ compensation & lost productivity costs
- ✓ Enhanced employment relationship between staff & the employer

How is a HREA session conducted?

HREA can be delivered either in-person or over-the-phone to maximise the flexibility & access to our service. Our psychologists maximise outcomes by quickly establishing rapport, conducting assessment, identifying key presenting issues, providing psychoeducation, developing insight & coping strategies to alleviate distress & facilitate the maintenance of treatment gains. These psychology sessions are offered during regular business hours Monday to Friday (either in-person or over-the-phone to provide flexible options for our valued clients. Each HREA session is billed for 50 minutes. Bookings can be easily made via 1300 723 911 during business hours.

Confidentiality and Reporting

In accordance with the Australian Psychological Society (APS) Code of Ethics and along with the professional & ethical requirements of the PBA and AHPRA, no personal information obtained during a psychology HREA session is freely disclosed (e.g., to any other person or organisation) without the prior informed & written consent of the individual. However, if a repeated workplace stressor is identified, employees are encouraged to inform their organisation appropriately, so intervention can be implemented &/or they may choose to formally approve our communication with the employer. In terms of reporting, an employer report is produced each quarter where relevant, which provides an overview of organisation utilisation rates, average number of psychology sessions utilised per de-identified employee, types of presenting problems & recommendations for overall wellbeing & performance enhancement.

Why should an employer Choose HREA?

With our HREA program, any employer may join the program without the need to pay any unnecessary retained costs like many other employee assistance programs. An employer simply pays for the number of sessions they want, which are valid for a full 12-month period. Ultimately, the HREA program delivers a high quality, corporate psychology solution at an affordable cost. Remember, this is not just a counselling service. This is a program where your staff can rely on the provision of informed, expert intervention from highly experienced registered & clinical psychologists delivering premium, gold-standard outcomes.

How quickly can the program be set up?

As quickly as required. Our program can be set up & accessed in barely no time at all. Simply choose your preferred HREA bundle as detailed below, forward payment & we will provide you with the 1300 723 911 which can be assessed easily by staff during business hours to arrange a psychology HREA session.

Referrals

Referrals can be made directly by staff members wishing to seek HREA psychology services dependant on the HREA bundles purchased by the organisation. This can be done anonymously to their employer which often helps to enhance the willingness of staff to seek appropriate intervention in a confidential and timely manner.

How many sessions can an employee utilise?

It will be at the discretion of the employer as to how many sessions one individual employee can access. For example, the employer may choose to allow an employee to access 3, 6 or more sessions per annum. This decision will be ascertained at the commencement of the program & the HR Employee Assist team will administer accordingly.

Any additional costs of the service?

Employers only pay for the sessions they request in a bundle. The only additional possible costs associated with the HREA service are travel costs in the situation where an employer requires a psychologist 'on-site'. Otherwise we offer a convenient location in near proximity to the city with free parking for those clients wishing to access in-person sessions. Any travel within the greater Brisbane metropolitan area (Including Ipswich, North Lakes & Yatala) there is a flat \$60 (Excluding GST) charge. Any travel outside of the Greater Brisbane Metropolitan area will be charged at \$60/hr (pro rata) plus any associated motor vehicle or flight costs (availability depending). All costs will be agreed with the employer prior to being incurred. Where there is an inconsistency with this charge and the Human Outsource Pty Ltd Engagement Letter with the Employer, these charges will apply to the extent of any inconsistency.
